Message from the President of the West Toronto Dental Society

The Holiday Season has past and I hope all have survived the festivities. Now that winter is here I will be enjoying life on the slopes in Utah and Wyoming. The vitality of any organization depends on the enthusiasm and participation of its new younger members. I want to officially welcome to our executive Dr. Maria Cosentino, Dr. John Simpson, Dr. Chris Li and Dr. Vageesh Sabharwal.

John and Chris both represented West Toronto at the last O.D.A. Council Meeting and Vageesh is our new representative on the O.D.A. Political Action Committee. Anyone wishing to attend an executive meeting can contact me at 416-536-9535.

Our program for this year is well under way; so make sure you mark the following dates in your day timer.

January 26, 2006 at the Old Mill, 21 Old Mill Rd. we present Jasmine Ghosn the Ontario Dental Association's Health Policy and Legal Advisor. Jasmine's topic will be Employment Law Considerations for the Dental Office and Overview of the new O.D.A. Employment Guidelines. A question and answer period will follow. This meeting is open to all dentists

and their staff. Dinner is included. This year we have planned **two general body meetings** for all West Toronto Dental Society Members. They will be held at Montgomery's Inn, 4709 Dundas St.

West and they begin at 6:30 p.m. **March 01, 2006 will be Wrap Night** — Rap with the R.C.D.S. The topic will be Risk Management. A short executive meeting will follow. **April 04, 2006 will be Pizza Night** — we present Dr. Jerry Weisberg, a Past President of West Toronto

DR. BOB GREENBAUM
President,
West Toronto Dental Society

and Dr. Rolin Matsui. Dr. Weisberg's presentation will be titled Dentists and the Dental Benefits Claim Process and Dr. Matsui will discuss the Dental Legal Benefits Program. The culmination of the year's events will be held **May 18, 2006** at the Lambton Golf Club. This social evening will include wine tasting, gourmet dinner and presentation of the O.D.A. Awards. A short business meeting will follow. I hope to see you at all or some of our programs. Please return the registration forms as soon as possible.

Sept. 21, 2005 - ODA President Addresses West Toronto Executive In photo from left to right; President Elect of West Toronto - Dr. Jody Zajacz-Karkic, Past President of West Toronto - Dr. Mark Steele, ODA Executive Director - Tom Magyarody, President of West Toronto - Dr. Bob Greenbaum, ODA President - Dr. Jocelyn Pearce, Port Hope, Board of Directors Member and ODA Liaison for West Toronto - Dr. Harry Hoediono, Kitchener, Toronto Academy of Dentistry President and West Toronto Executive Member - Dr. Tim Milligan.

Dec. 1 - Hosts for West Toronto Executive Christmas Party Held at Perige Restaurant, Distillery District; Past President of West Toronto - Dr. Mark Steele (right) and his wife - Teresa Smegel

MESSAGE FROM THE PRESIDENT

As 2005 comes to an end it is important to take stock of our accomplishments then to look forward to 2006 and to what the Academy can accomplish in our future.

As you know, the 2005 Winter Clinic was a tremendous success and everyone from our own staff, Mara and Pat, to the members of the Winter Clinic committee, should be complimented for their efforts under the leadership of Dr. Ed Phillips. The enthusiasm amongst the dental community was very evident as we expanded the Hands-On theme. Part of the enthusiasm revolved around the many & varied activities on the exhibit floor. Additional activities such as the Mary Kay cosmetics booth, the Caricature Artist and shopping by limousine for spouses and partners were among the many that helped to attract individuals and increased our numbers this year. Winter Clinic attendees enjoyed the fun & camaraderie of a magnificent Allan Cherry fashion show, utilizing not only twelve beautiful professional models, but also drawing from the enthusiasm of our own, including Drs. Ron Richardson, Glen Partnoy, Phil Shedletsky & myself. To add to the crescendo there was a draw at the end of the event for a \$20,000 business-class trip for two to anywhere in Italy! With help from exhibitors, and some of their leaders like Michael Comartin, Cy Elbourne, and Peter Jordan along with DIAC, we were able to improve our collective efforts and host a terrific day.

Be sure to mark your calendars for Friday, November 10 in the North building for the 2006 event hosted by Dr. Flavio Turchet. Look for upcoming information on this special event soon. The Winter Clinic committee will be meeting for a wrap up shortly to build on our strengths and continue to improve the best one day seminar around.

It is important for everyone to be aware that the Academy is always looking for ways to improve and, most recently, the Line Officers and our Director met for a strategy meeting and retreat in an effort to review where we were, where we are and where we need to go. The meeting was extremely well run, very enthusiastic and we will be compiling information to disseminate to our Councillors in an effort to bring everyone together and create enthusiasm in our four societies.

MISSION STATEMENT

The TORONTO ACADEMY OF DENTISTRY, a respected leader and resource to the dental profession in the Metropolitan Toronto Area since 1890, is dedicated to enhancing the professional lives of its members through guidance, education and service.

CORE VALUES

- Advancement of the art and science of dentistry
- To promote the highest ideals of dental practice
- To cultivate harmony and good fellowship among the members of the dental community

THE VISION

The Toronto Academy of Dentistry is a not for profit association representing the dentists of Toronto. We are recognized as a leading, responsible, accountable and benevolent link between the dentists and our community.

THE PROCESS

A governing Council of elected members will guide its actions in accordance with an established Constitution.

TIM MILLIGAN,
B.SC., DDS
2005-2006 President,
Toronto Academy of Dentistry

Recently, I was allowed to attend the Ontario Dental Association General Council Meeting as an observer. I was extremely impressed with the efforts and leadership under Jocelyn Pearce. I was also impressed with the synergism that exists between the ODA, CDA and RCDSO. I offer my compliments and appreciation for being allowed to participate in their meeting.

Coming up shortly we have our Academy Ski Day held at Osler Ski Resort on Friday February 24th. This event is not only a social one - chock full of FUN! - it is also an important event, as it raises substantial funds for the Canadian Cardiac Rehabilitation Foundation, an organization of long standing, that does tremendous work in their area. **Invite your friends and team members to have a great day in a wonderful resort and help raise funds for the CCRF!**

Shortly thereafter, on March 4th, the Academy will host our annual Curling Bonspiel at the Thomhill Country Club. This event is spectacular and is simply a first class day of fun and competition. Each society should be challenged to put together a team and compete for the Hing Trophy donated in memory of the father of one of our past presidents, Dr. Warren Hing. You don't have to be a curler to enjoy a wonderful day away from the office in the company of people from all over our province!

Coming up, we look forward to a new design for our newsletter and improving on our website.

Part of our Mission remains the gifting to worthy causes and organizations of the funds we raise through the Toronto Community Professional Dental Association (Endowment Fund). If you are aware of such a cause please contact the office at 416-967-5649.

I wish you all a successful, joyful and healthy year.

Brush-a-mania is an annual program designed to promote oral health and awareness among young children. It was started five years ago by the Toronto East Dental Society and the Rotary Club of Toronto - Don Mills and has already reached over 125,000 students. With your assistance, we hope to reach every student in Ontario.

Toronto dentists may actively participate by contacting a school in your own community or simply register for a school presentation and our committee will make the arrangements for you.

All of the supplies required to run the program are shipped directly to each school. All dentists must be members of the Ontario Dental Association or the Rotary Club.

THE EVENT

Each participating school will hold an assembly during the month of April, where an Ontario Dental Association member dentist and a Rotarian will come into the school and provide the children with an interactive, entertaining presentation in proper dental care.

THE PROGRAM

The students track their brushes for the entire month of April in the classroom and at home in their booklets. Each student receives a toothbrush and a Brush-a-mania booklet containing activities and games, as well as, a take home chart for them to mark off their daily brushes. Students who complete the program receive a loot bag containing sugarless gum, stickers and a Brush-a-mania Club Member certificate.

CITY OF TORONTO PROCLAIMS ORAL HEALTH DAY

Friday, March 31, 2006 will be proclaimed Oral Health Day by Mayor David Miller.

COST OF PROGRAM

There is no cost for City of Toronto schools. The Rotary Club of Toronto - Don Mills fund raises every year to support these schools.

For more information or to register for Brush-a-mania 2006, please visit our web site at www.brushamania.ca. All City of Toronto schools, with contact information, are listed on our web site.

If you would like to work on one of our committees, please contact myself directly at raffy@brushamania.ca.

Thank you so much for considering supporting this community event.

TEDDY BEAR AFFAIR

SUBMITTED BY DR. TIM MILLIGAN

On Saturday November 26, 2005, the Children's Aid Foundation held its annual Teddy Bear Affair Gala fundraiser at the Metro Toronto Convention Centre.

Approximately 1000 guests attended this marvelous event with a Cruise Line theme.

Our Academy has been a longtime strong supporter of the Children's Aid Foundation, who among other things, provide excellent dental care for many needy children. This year, the Academy was represented by Dr. Flavio and Mrs. Janet Turchet, Dr. Tim Milligan and Josie Cuda, Dr. Warren Hing and Jennifer Hing, Dr. Dave and Mrs. Kim Hanmer. Seated also at the table were Dr. Sheldon and Mrs. Cooper, as well as Dr. Brian and Mrs. Jafine. Of special note is that North Toronto Dental Society sponsored Dr. Cooper this year and I would like to challenge each Society to sponsor a representative in future years.

In past years our dental profession was much more evident at this wonderful event and it is hoped that we can improve our numbers in the future.

The Teddy Bear Affair is extremely eventful with aura readings, writing and palm analysis, excellent hors d'oeuvres,

cocktails, entertainment, an exciting live and silent auction and great food and dancing – in short wonderful fun and a tremendous opportunity to raise a huge amount for this Foundation. Although everyone is a winner the real winners are the children in need of our help.

It is my hope that in future years, we not only continue our support but exceed our efforts. This can only be done with sponsorship from the Academy and each of the Societies.

launch of the NEW **Alitalia** MAGNIFICA CLASS product on the Canada Italy route.

68TH ANNUAL WINT

Winter Clinic was held on November 4th at the Convention Centre. The theme this year was this is your chance to shine! What did you have!

There were many new initiatives to attract attendees including the Walk of Fame where our past presidents were honored at an Academy theatre where one could remember the past from years back as well as see new faces...

As well attendees could have their caricatures drawn, win a prize or have a makeover at the Mary Kay Cosmetics booth.

The attendance on the floor after 3:30pm was excellent, including some of our own talent – including Dr Tim Richardson, Dr Ron Richardson – was a great success! A number of prizes were generously donated by friends of the Association.

Afterwards the show culminated with a presentation by the Chair of the Business of Dentistry. Dr Ed Philippon had to be there to receive the award. We hope this year was your Winter Clinic. We look forward to November 10th – 11th. It was my pleasure to meet all of them.

DR. ED PHILIPPON

ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO: REPORT DR. MARVIN KLOTZ, COUNCILLOR, DISTRICT #11 (TORONTO CENTRAL)

MARVIN KLOTZ
Vice President, RCDSO

As we begin 2006 it is clear that some things will never change; while change is inevitable it is not necessarily for the best. Government expectation regarding professional regulation is high-sometimes even reasonable. However, Regulatory Colleges are under pressure, as never before. The watchwords are openness, transparency, access to care and scope of practice. Cold winds are blowing

but cool thinking can prevail. There will be changes in private offices and in regulatory control.

The hygiene situation is a still smoldering danger. Sane minds and honest battles are necessary for success. With member support, open minds and firm principles, truth and justice will win the day.

NATIONAL POST ARTICLE ON DENTAL FRAUD

As many of you may have seen, a front-page article on fraud in the dental profession appeared in the **National Post** on December 7. The extensive amount of time that the College Registrar Irwin Fefergrad spent with the reporter paid off, with lengthy quotes. Overall the College was presented as fair and diligent in protecting the public from fraud, and the problem is not as significant as portrayed by insurance companies. The College received congratulations from regulators here in Ontario and from across the country for so clearly presenting the role of regulators.

NIHB ON-SITE AUDITS

On November 22, the College hosted a meeting of NIHB staff and the dental working group at the RCDSO offices.

The College has taken a key leadership role nationally in moving these discussions forward, and in achieving a temporary halt to the on-site audits.

But with the change in senior staff at NIHB, this halt is now being revisited by NIHB.

FISCAL PICTURE

The operating budget for 2006 was approved at the October Council meeting, and we are looking forward to yet another year with no fee increase, and a projected surplus. This College offers the dentists of Ontario the best deal going in the country, since our fees include malpractice insurance coverage. The financial diligence of both Council and staff has led to an expansion of membership service and benefits, while securing the financial future of the organization and protection of the public.

ANAESTHESIA PROPOSED REGULATION AMENDMENT

At its October meeting, Council unanimously agreed that, if the anaesthesia portion of any oral and maxillofacial surgery program is accredited by the Commission on Dental Accreditation of Canada, based on the accredited national standard, any person graduating from that program can apply for a specialty certificate in dental anaesthesia by passing the NDEB exams.

Council encouraged Dr. Dan Haas and Dr. George Sandor to approach the Canadian Dental Association together to request national certification of the specialty.

RHPA REVIEW

The Health Professions Regulatory Advisory Council is moving forward on target with its review of our governing legislation, **the Regulated Health Professions Act**. It should be presenting preliminary recommendations very early in 2006.

We continue our open dialogue with HPRAC staff and consultants. In fact, the College's Registrar, Irwin Fefergrad, has been asked to assist the HPRAC legal counsel in their deliberations.

At the College's suggestion, the consultation was expanded to include important input from the public members sitting on the regulatory colleges. This consultation took place last week. The RCDSO has the largest and most active representation.

The great work that this College does has been acknowledged time and time again by HPRAC Chair Barbara Sullivan but there is no question that it will no longer be business as usual. In fact, the Minister of Health has publicly challenged the concept of self-regulation.

ACCESS TO PROFESSIONS FOR INTERNATIONALLY TRAINED PROFESSIONALS

Last year the Ontario government commissioned a comprehensive study on this issue by former provincial court judge George Thomson. He was asked to review the regulatory community's current appeals process, and to develop a set of common principles and best practices for a fair registration and appeals process.

His report was released early last month. As the Registrar reported to Council, Thomson's recommendations will have no impact on our processes. By all measure of fairness, transparency, disclosure and objectivity, our registration process passed the test.

CDRAF

CDRAF, the new national organization representing dental regulators across the country, now has a Web site. The address is www.cdraf.org, and it is available in both English and French. The College's communications staff played an instrumental role in the launch of the site.

INTERVIEW WITH CHIEF DENTAL OFFICER OF CANADA

Dr. Peter Cooney, the new Chief Dental Officer of Canada, met with College Council on October 26. He outlined his priority areas: a needs assessment of Canadian populations, and a focus on establishing a case for the importance of oral health care, and identifying gaps in service and access. All members will get a chance to hear first-hand from Dr. Cooney in a special one-on-one interview with him in the winter issue of **Dispatch**.

NEW RECORDKEEPING PRACTICE ADVISORY

The new Advisory on ensuring the integrity of electronic records and compliance with privacy legislation requirements is slated for distribution with the winter issue of **Dispatch** in mid-February.

For further information see "Council Highlights" which were sent to every dentist shortly after the October 27 council meeting and **Dispatch**.

This is an election year – stay in touch; keep informed; choose and vote wisely. Your RCDSO needs honest, fair-minded Toronto area Councillors to function effectively.

Happy New Year
Take it easy but take it!

Dental Meetings Calendar

JANUARY

Jan. 20/06	Crown & Bridge Study Club Full Day

June 01/06	Honours Night
June 7/06	West Toronto Dental Society Executive Meeting
	North Toronto Dental Society Honours & Awards Meeting
June 14-17/06	ODA Board of Directors Meeting

Dates are subject to change. Please call the Academy office to confirm or check our web-site at www.tordent.com/dental-meetings which is updated on a regular basis.

ENDOWMENT FUND

THANK YOU TORONTO ACADEMY OF DENTISTRY

ADAM PITE FROM MEDOUTREACH

We are a group of seven medical, dentistry and nursing students at the University of Western Ontario. We provide primary health care and education to under privileged communities in and around the city of Arusha, Tanzania over the summer. Though our days spent in Africa this summer are long past, the work has not ended. Medoutreach 2005 has been busy picking the team for the year ahead; writing our year end report for next years team; doing our best to ensure that our work began this summer is continuing with the medical and dental personnel that we worked with; and, trying to tie up a number of remaining projects.

Your donation through your endowment fund assisted us in many ways. I had the opportunity to spend three days travelling to CCF (Children for Children's Future) in Maji ya Chai. The 56 children here have made the choice to come off of the streets and off drugs to be provided with food, shelter, and access to school. This has become one of the major projects of Medoutreach. The medical and nursing students began medical screenings on the children last year, and this was continued by our group. I performed oral screenings on all 56 children, resulting in 32 children receiving scaling, 9 requiring extractions (due to extensive caries, or major tooth malformations - including gemination, fusion and general malformation), and 18 requiring restorations. Again, this was one of our major efforts from a medical/dental perspective, and indeed it was one of our most rewarding. The kids were absolutely amazing and we became quite close to them - even though a major language barrier existed with almost every child. Our final major effort involved teaching at secondary schools in and around the city of Arusha. This included Moshona, Kaloleni, Arusha Day, Maji ya Chai, and Lamara Secondary Schools where we taught topics ranging from HIV/AIDS, sexuality and condom use, to hygiene, first aid, substance abuse... and of course, (and most relevant to me) Oral Health. We taught the children proper brushing technique and frequency, and taught them our song "Piga

Mswaki" ("Brush your Teeth") in Swahili - actions and all! They absolutely loved it! Our other major efforts involved providing sustainable projects to the people we worked with. These are listed on the next page and include such things as providing long-term food sources to the children at CCF and other organizations. The project that I am perhaps most proud of is not even medically or dentally-related. Last years team began a scholarship program that enabled five children from very poor families to attend the entire four years of high school.

This year, Medoutreach 2005 was able to expand the program to include 32 additional children!! We believe that enabling these children to attend high school will have far-reaching benefits that will hopefully make a tremendous impact upon the community in the future. Due to the fact that Dr. Mhando's wife is on the Arusha District School Board, we are able to put the required funds directly against these future students tuitions - a task otherwise virtually impossible given the extreme corruption that exists there and in most other countries in Africa.

Medoutreach - a program which began 20 years ago, is continuing to expand its efforts and provide a greater impact upon this region of Tanzania. As a small group of health care students, our ability to continue and develop this program is completely dependent upon support from our families, our friends, and from our fellow colleagues. The marvelous donation bestowed upon us

by the Toronto Academy of Dentistry has enabled us to have an enormous impact upon the lives of so many this past summer. We are all extremely grateful for your tremendous support of our efforts, and look forward to working with all of you in the future as your fellow colleagues! Some of the work accomplished is listed below:

MEDOUTREACH 2005

Children For Children's Future - Maji ya Chai

- Medical and Dental Screenings on 56 children
- Identified and provided Medical follow up for 22 of these children
- Identified and provided Dental treatment for 38 of these children (cleaning, fillings, extractions)
- Provided funding for one month of food
- Provided funding for sustainable food source (chickens, goats and animal shelters)
- Donation of medical supplies and clothing

SDA Medical and Dental Clinic - Arusha

- Teaching presentations to medical staff (infection control, maternal

- health, first aid)
- Consultations and Treatment of Dental patients
- Donation of medical and dental supplies
- Kaloleni Government Hospital - Arusha**
- Treatment of Dental patients
- Donation of medical and dental supplies
- Nkoaranga Lutheran Hospital - Arusha**
- Treatment of Dental patients (extraction of 64 teeth)
- Provided assistance and donations of toys and clothing to associated orphanage
- Donation of medical and dental supplies, and clothing for infants
- Assisted in the care of orphans
- Donation of Knitted Items for newborns

MISSION STATEMENT

As an independent, student-run organization, MedOutreach strives to provide health care, comfort, and hope to those in need. Through the collaborative effort of nursing, dental and medical students, our team endeavours to improve the lives of Tanzanians through education, advocacy, and humanitarian work.

THE TORONTO COMMUNITY PROFESSIONAL DENTAL ASSOCIATION

Formerly known as the Toronto Academy of Dentistry Endowment Fund, The Toronto Community Professional Dental Association was incorporated several years ago to be used for charitable donations only and each year the interest accumulated must be given to charity.

Each year endowments are made based on the following categories:

Toronto Based	Education/Research	Challenged individuals	Dental Related
Non Sectarian	Child Oriented	Deprived Individuals	

Requests for funds must be received by November 15th and the committee to disperse funds prior to the Academy year end July 31st. There is no carry-over of requests; new submissions must be made each year.

MESSAGE FROM TORONTO CENTRAL

Hello Everyone,

Toronto Central has had a fantastic year this passed 2005 thanks to our committed members. We have seen more volunteers in our executive and more attendees to our members' night. Dr. Tina Meisami gave a wonderful presentation on the management of odontogenic infections in November. Our members were able to mingle, enjoy some good wine and food and learn.

Thanks to Dr. Shayne Lipton, this letter is entitled "Did You Know..."

Did you know.....

- That three grape varieties are used in Champagne – **Pinot Meunier** (red), **Pinot Noir** (red) and **Chardonnay** (white)
- That Dom Perignon (1638-1715), the Benedictine Abbey cellar master who is generally credited with inventing the Champagne making process, was blind
- That a **Standard Bottle** of Champagne holds 750 ml of wine, a **Magnum** holds 1.5 litres, a **Jeroboam** holds 3.0 litres and a **Salmanazar** holds 9.0 litres (that's 12 bottles!)
- A **Blanc de Noirs** Champagne is made entirely from red grapes, but is white. It offers a wine that is fuller than those with Chardonnay in the blend.
- A **Blanc de Blancs** is made exclusively of from the Chardonnay grape and it is the most delicate of Champagnes
- The ideal temperature to serve Champagne can be reached by placing an unopened bottle in an ice bucket – one-half ice, one-half water – for 30 minutes

Did you also know...

- For its' members, the ODA provides practice management tools, yearly economic reports and yearly wage reports. The wage report breaks down staff salaries based on position, years of service and region.
- For its' members, the ODA has designed a committee comprised of senior representatives to meet with the ODHA (Ontario Dental Hygiene Association) with the intent of reaching a resolution to the order issue.
- For its' members, the ODA maintains the DAR program, a professional help line. It is available for dentists, their team and their families, who may be in a crisis situation and is accessible 24 hours per day at [1-800-268-5211](tel:1-800-268-5211).
- For its' members, the ODA will be providing a program called ODA Select. When the program launches in the New Year, members will be able to go to the ODA website and select savings from a wide range of affinity programs that provide ODA members with discounts on a long list of suppliers, including Microsoft, Grand & Toy, and United Parcel Service (UPS), telecom services, merchant transaction services and more.
- For its' members, the ODA is involved in campaigns to heighten the public awareness and perception of dentistry.
- Only 65% of dentists practicing in Central Toronto are members of the ODA which is 15% below the provincial average!

In order to recruit new members the ODA is allowing a one time pro-rated membership fee for joining between January 2006 and May 2006. Please call membership services at the ODA 416-922-3900.

The ODA and its' component societies can only exist with your help and support. So please...join today. Come out to support our events and become a volunteer. Feel free to contact me at any time to discuss ways of volunteering (416-921-6772).

I wish everyone all the best for 2006.

BRUNO L. VENDITELLI,
DDS, D.ORTHO, FRCD(C)
President, TCDS

POLITICAL ACTION IN TORONTO EAST

As a representative of the Toronto East Dental Society I attended the evening session of the Political Action Meeting on Thursday October 27, 2005 held at Queen's Park. Also in attendance from Toronto East were Bruce Rubin, Andrew Syriopoulos, and Bharana Sawhney. During the evening MPP's came in and out of the reception. We were able to have discussions about dental issues and other concerns. I personally spoke to Mr. Kuldip Kular, Mr. George Smitherman liberal MPPs, Mr. Howard Hampton, an NDP MPP and Mr. Norm Sterling a conservative MPP as well as a number of aids. I made an effort to elicit comments from the MPPs on their position in regards to hygienists obtaining the right to self initiate scaling procedures. When I mentioned this issue, all MPP's that I spoke to indicated that they tended to support the dentists' position that this was dangerous to the public especially to those in long term care facilities who had significant health problems. However, none of the MPP's would commit publicly to this position. I was told on several occasions that it was important for dentists to attend these functions as well as other political functions so as to improve our visibility among politicians in general. What was less surprising was that I was told how important it was to regularly contribute to political parties on an ongoing basis.

On Friday October 28, 2005 we also attended a meeting on legislative education and awareness for dentists. We were addressed among others by the President of the ODA Jocelyn Pearce and our own Steve Abrams. Steve gave a detailed account of his efforts to influence government in the improvement of social service funding for dental procedures. We also heard from Frank Bevilacqua from the ODA on how societies could best influence the political process. Mrs. Elizabeth Witmer, the former health minister in the conservative government, spoke on the actions of the ODA and how it has positively influenced government thinking.

The message from these speakers was that political action dentists as well as other dentists must learn as much about legislators as possible and should establish an ongoing relationship with these people and their aids. It is also important that dentists should not be only concerned with dental matters but be concerned about other community matters as well. A relationship with legislators must be ongoing and has to be nurtured.

To this end a committee, entitled the Political Action Committee, is being established by the Toronto East Dental Society. The mandate of this committee is to promote the interests of dentists and the interests of the public in general. This will be accomplished by encouraging dentists to get involved in the political process and to have the Toronto East Dental Society aid these dentists in this endeavor.

Dentists should continue to meet with legislators at every opportunity both at the formal level but also at informal levels as well. Specifically we should encourage these meetings. It would be good for dentistry and for the community in general if more dentists were involved in the political process. This can be done as easily as attending a local dental society meeting or a meeting of the executive of the Toronto East Dental Society. All ODA members are welcome at these meetings. It only takes a phone call to myself or the president Alan Goodman or any of the executive to get your invitation to these meetings.

DR. ALLAN GOODMAN
President
Toronto East Dental Society

TEDS would like to wish all members a healthy and happy 2006. The year will be starting off on January 19th with a general membership educational meeting at the Donalda Club that will feature Jasmine Ghosn, the ODA's staff lawyer, speaking on labour law and employment standards. We encourage all TEDS members to attend as this event promises to be very beneficial to our efficient running of the "business" side of dentistry.

As the result of the October 27/28 Political Action Reception and Conference, attended by our Political Action contact dentists and Dr. Mark Goodman representing Teds, Mark has forwarded the following report. The programme is an example of the ODA taking a proactive role in establishing our voice and assuring that society learns and appreciates our contributions and concerns for oral health.

Please be reminded that the next TEDS executive meetings will be held Tuesday, Feb. 7 and Thursday, Apr. 27. If any TEDS member wishes to attend, contact me at 416-441-3232.

Allan Goodman

NORTH TORONTO

The North Toronto Dental Society has been active arranging meetings and programs for this year.

The education committee, chaired by Dr. Kermanshahi met in October and has arranged a meeting in January sponsored by Tulsa Dental and featuring Dr. Wayne Pulver. In addition the committee is hoping to arrange one or two panel discussion programs for later in the season.

The oral health month committee, chaired by Dr. Elliott Schwartz has arranged a special project for this spring in Yorkdale. We will be having our honours and awards evening on Wednesday Jun. 7 2006 at the Bayview Country Club.

Details of the NTDS oral health project in April and our honours and awards evening are listed below.

Our next meeting of the North Toronto executive will be on Thursday February 9, 2006 at the Bayview Country Club. You have much to gain and to offer by becoming active in your component society. If you have any questions, would like more information, or would like to join us feel free to contact me at 416-225-7221.

SCHEDULE:

FEB. 9 '06 NTDS EXECUTIVE

NORTH TORONTO DENTAL SOCIETY NEW DENTISTRY FORUM – MARCH 30 '06

The scope of dental treatment like any other aspect of human society has been subject to change during the last 15 years with ever-increasing speed. These changes usually result from research and development mostly sponsored by manufacturers who are offering new techniques and introducing new equipment and devices to our profession.

Today we can offer to our patients so many better and easier services. For example, hard tissue laser and restoration without freezing and drilling are revolutionary. Tooth removal followed by immediate implant and crown placement is an exceptional service. Getting rid of those ugly and cumbersome brackets and the convenience of clear aligners is patient's dream.

But many of these new techniques and technologies have not yet passed the test of time. And most of them have not entered into the academic curriculum.

What can we do? Are we going to invest in these new modalities which are costly and potentially could create additional liability for

us, just because manufacturers' supported research advocates them? Remember those all porcelain crowns and bridges which created so much embarrassment for most of us.

At the North Toronto Dental Society we would like provide a forum to allow those who have first hand and unbiased experience with these new techniques to share their comments. We do not have to look far. There are pioneers among us who can help us make our own decisions. In this spirit, the North Toronto Dental Society is planning to have a forum both for dentists who are already invested and using some of the new modalities and for those colleagues who are planning to purchase and add new technologies to their practice.

The forum is scheduled for March 30th, 2006. We invite both experienced and inquiring dentists to participate in this forum. Share your knowledge and experience with those willing to learn from your pioneering footsteps.

We anticipate this session of our Eat and Learn series will prove to be very informative and beneficial to all participants. For further details please refer to the specific details about this event.

YORKDALE SHOPPING MALL (SEARS COURT) SUNDAY APRIL 16 '06 TO SATURDAY APRIL 22 '06

During Dental Health month, April 2006, North Toronto Dental Society will be hosting an information booth at Yorkdale for one week. Dentists will be available to provide the public with information about maintaining their dental health, the services provided by the dental health professional team, and careers in the dental profession. In providing a one to one discussion outside of our offices to the public we will be enhancing our image of a profession that cares about the health of the public.

North Toronto Dental Society will need volunteers both general practitioners and specialists to cover the booth throughout the week of April 16 to April 22. In the local newspapers we are going to advertise theme days ie Orthodontics, Endodontics, Periodontics, Paediatric Dentistry, Surgery, Cosmetics (Prosthodontics) and will need volunteers in all these areas. Times for each shift will be 9:00am to 1pm. and 1pm to 5pm. The evening shift should be easy to find volunteers for and these times will be filled at a later date.

EAT AND LEARN

NORTH TORONTO DENTAL SOCIETY (NTDS)

Cordially invites you to attend our third eat & learn event

NEW DENTISTRY FORUM

"The forum will be on new techniques and technologies introduced to dentistry during recent years such as hard tissue laser, clear aligner orthodontics, digital radiography etc.... We would like to invite those pioneer colleagues who are using new modalities in their offices to share their experiences with other colleagues who are planning to incorporate those technologies in their practices.

This is a good way to exchange information and obtain the unbiased opinion from our own colleagues. We anticipate this will be a very informative session and beneficial to participants"

March 30th 2006 6:30-9:30 PM

A light dinner will be served

REGISTRATION FEE: \$20

For further details please contact Dr. Mohsen Kermanshahi @ 416 250 8000 or Dr. Sheldon Cooper @ 416 225 7221

Please make your check payable to the North Toronto Dental Society and send it to:
Dr. S. Cooper
6217 Bathurst St., Toronto, Ont. M2R 2A5
Registration deadline: March 15, 2006

(Cont. NTDS)

At the booth we will have literature, tooth brushes, various oral hygiene supplies to give out to the public. As an added attraction will have a dental chair set up with an intra oral camera so the public can view their own mouth and teeth from a dental professional's perspective.

If you have any days or half days during the week to help out please call to give us a helping

hand. I will be calling members of North Toronto Dental Society to ask for help for those times that are not initially covered by responses to this announcement. Please help us by rearranging your schedules. Not only will you be showing your commitment as a Dental Professional you will also have a lot of fun.

If you can help please call Elliott Schwartz at 416-224-2300 (office) or 416-633-2230 (home)

HONOURS AND AWARDS NIGHT

The annual North Toronto Dental Society's honours and awards night will be on June 7, 2006 at the Bayview Country Club. This gives us the opportunity to recognize individuals who have been members of the Ontario Dental Association and NTDS. Those honoured with membership awards include:

25 YEARS: Dr. Steven Howard Brown; Dr. Ian William Fleming; Dr. Ricky Felix Kochman; Dr. Abraham Kohl; Dr. Lyon Jacob Schwartzben; Dr. Jeffrey Bernard Shelson; Dr. Ligita Aija Steinmanis; Dr. Dennis Daye Yokota; Dr. Vahe Manook-Pezeshkian

30 YEARS: Dr. Iginio C. Cervini; Dr. Hung Der; Dr. Jeffrey Stanley Erlich; Dr. Paul Michael Jesin; Dr. Jeffrey Wayne Lewin; Dr. William David Shuster; Dr. Fernando Antonio Simone;

35 YEARS: Dr. Edward Carl Jurczak; Dr. Arthur Gordon Kamin; Dr. Norman Stephen Kapitan; Dr. Mai-Liis Karro; Dr. Leslie Kovari; Dr. Dagmar Le Francois; Dr. Stanley Howard Waese; Dr. Gameel Ibrahim El_Faizy;

40 YEARS: Dr. David Cowan; Dr. Hart Alexander Harvey; Dr. Erik Langenholt; Dr. Huber Thomas Lee; Dr. William John Ramage; Dr. Tuulikki Soili Vierema;

45 YEARS: Dr. Bernard Jonathon Bassett; Dr. Alan Gabriel Green; Dr. Saul Kendal; Dr. Ouk Lee; Dr. Robert Keith Linghorne; Dr. Murray Wagman; Dr. Marvin David Mecklinger

50 YEARS: Dr. Samuel Harold Brown; Dr. John A. Chalmers; Dr. Gordon M. Marshall; Dr. Robert Sidney McKegney; Dr. Albert Reinstein

Congratulations to all our members and details of the evening will be available soon.
